HP Designjet T1100ps 1118 mm Printer

Architects, designers, engineers and GIS practitioners looking for a fast, reliable large-format printer designed for workteam use will find the HP Designjet T1100 Printer series ideal for producing high quality CAD and GIS projects, technical drawings, posters and renders.

Impress your clients with prints that have a new level of accuracy and detail with HP Vivera Inks.
Attain exacting detail, hard-to-achieve tones and true neutral grey with the HP Three-black ink set. Get improved line accuracy to 0.1%, 0.0423 mm minimum line width and crisp text as HP's new printhead design achieves precise placement of smaller drops. Create professional prints with smooth area fills, more depth and subtle contrasts from the most vivid colour to the softest tones with HP Vivera Inks. Get excellent smudge-resistance on a range of HP media with fast-drying HP Vivera Inks.

Enable workteam efficiency with fast CAD and GIS printing, networking and manageability features.
Print projects without sacrificing accurate print quality and up to 3 times faster[1] with an A1 page in up to 35 seconds[2]. Process complex files quickly: files are processed in the printer not the workstation, so you can send a file to the printer and get back to work. Change print job priorities and reprint copies efficiently with the Job Center and HP's embedded Web server. HP Jetdirect networking supports high-speed printing and workteam productivity, now and in the future.

Upgrade to a Designjet printer that you can count on for consistent colour and full compatibility.
Get colours consistent with other HP Designjet printers[3]. Get screen-to-print matching with HP Professional Color Technologies: enhanced sRGB and AdobeRGB printing, Closed Loop Color calibration, TIFF and JPEG with embedded ICC profiles, offset emulation and Pantone® calibration. Enjoy full compatibility as most CAD applications on a wide range of operating systems are supported thanks to embedded HP-GL/2. Embedded Adobe PostScript 3[4] provides support for more complex applications.

[1] Compared to the HP Designjet 800 Printer series, based on 4 copies of 50 A1 pages using normal print quality on plain paper Intervention time not included

[2] Mechanical printing time on plain media using fast economode

[3] This printer can emulate HP Designjet 500, HP Designjet 800, and HP Designjet 1000 printers

[4] Available on HP Designjet T1100ps printers only.
